

ZEITSCHRIFT FÜR PHYSIKALISCHE CHEMIE

**International journal of research in physical
chemistry and chemical physics**

Publishes Your Special Topic

The enormous progress in all sub fields of physical chemistry creates a constantly growing number of publications. Keeping the overview becomes increasingly difficult.

Topical issues helping to maintain this overview will constantly gain importance. Therefore the editors and the publisher of Zeitschrift für Physikalische Chemie decided to dedicate special issues to your special Topic.

Characteristics of Topical Issues of Zeitschrift für Physikalische Chemie are:

- Hot Topic in Physical Chemistry
- High scientific level (peer reviewing)
- Concise survey of the state of the field

Become Guest Editor and benefit from the advantages of a modern journal which is based on a long tradition which guarantees:

- International citation (ISI/Impact Factor)
- electronic availability (DOI)
- short publication times
- international distribution
- high print quality
- 25 reprints per contribution
- Separate publication as Proceedings Volume with ISBN possible

Special Issues published so far:

- 01/2007 Controlling Protein Adsorption at Materials Surfaces
(Guest Editor: Claus Czeslik, Dortmund)
- 11/2006 Ionic Liquids
(Guest Editor: Frank Endres, Claustal)
- 02/2006 6th German Ferrofluid Workshop
Saarbrücken 2005, 88th International
Bunsen Discussion Meeting

Planned for 2007:
Modern Electrochemistry of New Materials
(Guest Editor: Lothar Dunsch, Dresden)

A Special Topic Issue can cover max. 250 pages which means two issues of the journal. For such a volume we envisage about 10 to 15 contributions.

Original Work is preferred; however a limited number of reviews can be invited. Communications will not be accepted.

Please contact one of the editors or our editorial office giving a short outline of your planned issue and your time schedule.

Every contribution has to be double peer-reviewed. Reviews have to be sent to the involved editor. Contributions can be rejected by the editor.

Contributions have to follow the Instructions to Contributors.
